

Date:	Sun, 3/10/2002	Location:	Cozumel, Mexico
Time:	11:33	Site:	Palancar Reef - Wall
Altitude range:	0 ft ... 3000 ft	Interval:	
Weather:	clear	Air temperature:	85 °F
Dive suit:	Shorty	Tank size:	80.0 cft
Maximum depth:	96 ft	Dive time:	00:41
Min. temperature:	78 °F	Air consumption:	2219 psi
Dive type:	No stop, Single ascent, Sea water		
Activities:	Sightseeing, Drift-dive		
Alarms:			
Buddies:	Kyle Martin, Greg Gahlon		
Remarks:	So so vis but we saw a large lobster and a large school of dolphin fish. We did a couple swim throughs as well. This dive was along the wall. The current was strong so we all stayed close to the wall where it was less intense.
